

*First and foremost . . .*

Thank you for all your support and prayers this last year. We continue to be active in keeping the Holy Angels Church and Cemetery preserved. Visitors from across the country continue to come and see our beautiful church. They have come as far away as California and Maine. Every Wednesday morning at 8:30 am is the Prayer Service with rolls and coffee following. Saturday evenings at 5:00 pm there is a Prayer Service and Rosary. On Sunday, October 1st we had our Feast Day Mass followed by coffee and rolls. *Join us this Christmas Eve for Mass at 4 pm.* Once again this year we had Baptisms, Weddings and End-of-Life Celebrations. Our hope is that everyone who visits will experience peace and love here.

*150th Celebration Short & Long Sleeve T-shirts, Sweatshirts, Koozies & 2024 Historical Calendars are now available. Contact us on Facebook, Email or Phone.*

*Top news of the year*

We are so excited about our 150th Celebration on August 31, 2024. Seeing families and friends all gathered for our special day will be such a blessing. We have been overwhelmed with support for this fun event! Meetings are the 3rd Thursday of each month at 6:30 pm in the new garage. Please feel free to join us. Anyone or families wanting to volunteer for 2 hour sessions, please let us know. We will definitely need help! We have 2024 Historical Calendars available with beautiful pictures, stories and events for \$10. Plans for the day include a parade, games, live music, family tree displays, bags tournament and an auction. All proceeds from this event will go to tuck-pointing the Church. This will preserve the Church for many more years!

*The New Garage*

Once again our Church and Cemetery have been shown some love this year. The garage is FINISHED! Cupboards were donated in exchange for taking them out of a home. Garage doors were put on and a fresh coat of paint put on the inside. Extra cement was poured around the building to help with erosion and maintenance. The donated refrigerator, freezer, air-conditioner and heater have already come in very handy. The garage has worked great for the fundraising events when we grill - Memorial Day, Car Show and Tractor Show. Tables and chairs were donated and are being put to good use during our 150th Celebration meetings and grilling. The Church basement steps were rebuilt and poured new walls. A portion of the black iron fence that surrounded the cemetery was refurbished. It protects the air-conditioning units outside while keeping with the historical look. A HUGE shoutout to all the volunteers!
